Wattstopper

Discontinued - Digital IR Ceiling Mount Receiver

Part No. LMIR-100

The LMIR-100 Digital IR Ceiling Mount Receiver provides an infrared (IR) interface so that Digital Lighting Management (DLM) IR remote controls can be used where DLM sensors or switches are not easily accessible for wireless communication. The LMIR-100 operates on power from the DLM local network. It uses an infrared transceiver to accept commands from DLM IR remote controls and transmits them over the DLM local network. It is recommended for applications where the wall and ceiling-mounted IR-enabled DLM devices are not within direct line of sight of the occupant using the IR remote control, or are not close enough to the user.

Features & Benefits

- Extends the operating range for DLM IR-enabled handheld remotes controls
- Component of Digital Lighting Management integrated control systems
- Low profile styling fits in fixture or blends seamlessly with any ceiling
- Communication LED

Specifications

General Info

Product Line	Wattstopper	UPC Number	754182925384
Country Of Origin	China		

Dimensions

Product Width US	3.0 in	Product Weight US	0.15 lb
Product Volume US	36.06 cu in	Product Depth US	2.48 in
Product Height US	4.8 in		

Additional Information

RoHS Compliant	Yes	DesignLights Consortium Qualified System	Yes
Security	Yes
