

Pass and Seymour 15A, 125V Straight Blade Ground Continuity Monitoring GCM Connector Part No. 15W47GCM

Rated watertight for 1,500 psi high-pressure hosedown, Pass and Seymour watertight GCM plugs and connectors feature multiple seals to ensure protection against the environment. The transparent body houses dual LED lights with 360 visibility, indicating ground continuity and power status, while providing a NEMA 6P/IP67 rating.

## Features & Benefits

Integral indication of ground continuity and power status. Green LEDs indicate proper ground continuity and power status. Red LEDs indicate ground continuity Convenient continuous monitoring enhances loss or reversed polarity. No LED indicates open hot, open neutral, or hot to ground cross.

Thermoplastic elastomer (TPV) construction stands up to impacts, oils, chemicals, heat and weather. Large ribs on body for a superior grip when mating.

Recessed cord-grip screw reduces screwdriver slippage for improved safety. Quick-thread tri-drive assembly and cord-grip screws come backed-out and ready-to-wire.

Color-coded terminal screws are positioned on the same plane and backed-out for fast installation.

For covering patents, see www.legrand.us/patents.

## Specifications

Exclusive two-piece cord grip accepts a wide range of cord widths and provides more consistent pressure for superior conductor retention.

Internal dust shield keeps terminals free of contaminants.

Nickel-plated blades and contacts for long lasting, superior corrosion resistance.

General Info			
Product Line	Pass & Seymour	Country Of Origin	United States
Application Sector	Commercial	Standard	CSA Listed, FSUL, UL Listed
Dimensions			
Product Height US	1.85 in	Product Length US	4.03 in
Technical Information			
Phase	Single	Connection	Cable

April 25 2024 - For latest specs visit <u>www.legrand.ca</u>

Number of Wires	3	Amperage	15 A
Number of Poles	Double Pole	Wire Size	18 - 12 AWG
Voltage	125.0 V	Environmental Conditions	Moisture Resistance NEMA 3R (Flip Lid Assemblies/Back Boxes) Flammability UL94V0 (boxes & wiring device interiors) UL94V2 (cover plates) UL94HB (wiring device housings, flip lid seals) Operating Temperature -40°C (without impact) to +60°C continuous UV Resistance All exposed materials are UV stabilized
