Discontinued - M2M Platform, DIN mount, 6LoWPAN WiFi, GSM 2000 Pt.
Part No. 254GWS

Cablofil Wiremesh Cable Tray concept based upon performance, safety and economy: three qualities which make Cablofil Wiremesh Cable Tray system preferred by installers. Cablofil adapts to the most complex configurations, and its structure gives maximum strength for minimum weight. The ease of creating fittings, carried out on site, as well as the wide range of unique and universal accessories gives complete freedom in routing combined with exceptionally fast installation.

Features & Benefits

Special Safe-T Edge: protects installers from sharp ends while it prevents cables from fraying

Wire mesh is smooth and round to resist dirt and dust build-up.

Standard 10 ft. lengths, straight and easy to handle.

Large mesh size (2 inches wide by 4 inches long): allows cable installers to route cables in and out at any point without cutting the tray.

1 in. to 6 in. high flange side of the tray: prevents cables from falling off.

Dimensions are nominal: other sizes available on request.

Available in the following finishes: Electro Zinc, Hot Dipped Galvanized, Stainless Steel 316L, Black Painted, and other Painted.
