

Pass and Seymour 15A, 125V Half-Controlled Plug Load Controllable Receptacle, Brown

Part No. 5262CH

Permanent controlled receptacle marking allows for long-lasting, easy identification of controlled receptacle for end-users. NEMA-approved and compliant with 2014 NEC, CA Title 24, and ASHRAE Energy Efficiency Standard 90.1.

Features & Benefits

Can be wired to any number of system-based or standalone plug load control solutions.

Corrosion-resistant, plated and tabbed steel strap locked in to face and back body to resist pulling away from face/body assembly.

Easily accessed break-off, line-contact connecting tab for fast, easy split-circuit wiring.

8 hole internal screw-pressure-plate back wire terminals accept #10 - #14 AWG solid or stranded copper or copper-clad conductors.

Tri-drive terminal and mounting screws.

For covering patents, see www.legrand.us/patents.

Factory-broken split-circuit tab allows for 50% plug load control to be achieved in one duplex receptacle.

.032 inch thick, brass, triple-wipe power contacts for lasting retention.

Impact-resistant nylon face.

Terminal compartments isolated from each other for positive conductor containment.

Auto-ground clip assures positive ground.
