

See who is at the front door, from multiple locations in your home, with this easy kit. Includes an Exterior Video Doorbell Camera, and an Interior Intercom Unit to receive and display the camera's images. Additional Interior Intercom Units can be added to the system and connected wirelessly to existing units. System limit is three interior intercom units per system.

## Features & Benefits

Exterior Video Doorbell Camera transmits images from the front door to every Interior Intercom Unit installed throughout a home.

All Interior Intercom Units communicate with any other installed Intercom Units via audio (system limit of three).

Camera can be powered by its long-lasting battery unit, or through existing doorbell wiring. Extender cable included to allow you to easily mount the unit at camera height and connect it to wiring in the doorbell opening.

Includes a power cable for the Interior Intercom Unit, which must be plugged into an existing outlet. It can be surface-mounted to the wall, or placed upright on a tabletop with its easel back.

## Specifications

### General Info

**Color** Magnesium
