

Wattstopper  
PIR Ceiling Occupancy Sensor, 24VDC/AC, Isolated Relay, 500ft Coverage, USA  
Part No. CI-24-1-U

Wattstopper's CI-24 ceiling mount passive infrared occupancy sensor reduces energy waste in unoccupied building spaces by communicating occupancy to EMS and HVAC systems.

## Features & Benefits

360° coverage

Interfaces directly with EMS or HVAC system through internal isolated relay

User adjustable time delay and sensitivity via DIP switch

Four-level Fresnel lens offers superior desktop detection

Low profile design

## Specifications

### General Info

Product Line	Wattstopper	UPC Number	754182931156
Country Of Origin	United States		

### Technical Information

Sensor Type	Occupancy	Amperage	37 mA
