

Detect motion at doors and windows for added protection against intruders. Simply place smart sensors on your windows, doors or driveway gates to receive a notification when they are opened. Designed to sense vibrations, they can even alert you before an intrusion. They're also usable to get helpful information about your home. Know if you accidentally left a window open thanks to the integrated open/closed state sensor. Choose to be alerted, or check directly on your smartphone to see if all windows and doors are closed. Use the smart sensors wherever you need them. Thanks to their waterproof design, they can be installed indoors or out. Simply stick the sensors one-piece tag to any door or window. For an extra layer of security, use with your Netatmo Smart Outdoor Camera and Smart Indoor Camera for a security system that fully protects your home from the inside out. The sensors were designed to work exclusively with the Smart Indoor Camera, sold separately.

Features & Benefits

Detects motion	Detects vibration
Includes an open/closed-sensor	Waterproof for outdoor use
Installs easily	Features a 1-year battery life span

Specifications

General Info

Product Line	Pass & Seymour	Color	White
Finish	Matte	UPC Number	700730503238
Country Of Origin	China	Application Sector	Residential/Commercial
Standard	FCC and CE	Type	Accessory

Additional Information

RoHS Conformant	Yes
