On-Q

20-inch Plastic Enclosure, No Cover

Part No. ENP2080NA

Integrate traditional structured wiring installations that require a smaller 20-inch plastic enclosure. The enclosure is made from wireless transparent ABS plastic material, is light weight, low-profile and robust. Perfect for both surface and recessed applications that don't require a door or trim ring. The 20-inch enclosure offers easy and professional looking cable management for all your needs from voice and video to data as well as your router, Apple TV, Roku and more.

The hinged door and trim ring can be purchased separately to complete installation during trim-out phase.

20-inch plastic enclosure along with trim ring and hinged door.

Features & Benefits

Made with ABS plastic, the enclosure is designed to integrate wireless devices without interference

Universal mounting grid maximizes compatibility with 3rd party products without additional brackets.

Installs into a single stud bay and staggered mounting tabs allow multiple enclosures to mount in adjacent stud bays.

Tapered design allows enclosures to stack for efficient transportation and warehousing.

Top surface includes five 2'' knockouts: rubber grommets available for purchase (AC1034).

Bottom surface includes two AC receptacle box knockouts and two 1 1/4'' knockouts.

UL listed.
