

The Legrand Shading Systems ES motorized operated roller shade is an extremely flexible shade solution for single, dual, coupled, and oversized motorized shades. The ES series hardware provides a series of different sized brackets and coupler combinations that allow for standalone and coupled shades for straight, curved, or even 90 degree windows for nearly any sized shade. The motors can operate independently with local controls or together with a Wattstopper lighting control system to provide integrated and automated system control with lighting.

Features & Benefits

Available with all motorized roller shade features needed for any commercial project

Programmable top and bottom limits

Allows for native integration with Wattstopper for control of lighting and shading on a single system

BMS compatible using BACnet over IP

Aluminum tubes ensure no rust stains on the fabric from high humidity locations

Specifications

General Info

Product Line Shading Systems

Application Sector Commercial

Dimensions

Maximum Product Width 260 in

Maximum Product Height 450 in

Additional Information

Product Has Potential to Contribute to LEED Yes

Technical Information

IP Rating IP31

Voltage 120 VAC

Speed 24RPM

Limit Switch Capacity 300 Turns

Rated Current 0.95 A
