

Shading Systems ES Series Shade System Part No. ES-Motorized

The Legrand Shading Systems ES motorized operated roller shade is an extremely flexible shade solution for single, dual, coupled, and oversized motorized shades. The ES series hardware provides a series of different sized brackets and coupler combinations that allow for standalone and coupled shades for straight, curved, or even 90 degree windows for nearly any sized shade. The motors can operate independently with local controls or together with a Wattstopper lighting control system to provide integrated and automated system control with lighting.

Features & Benefits

Available with all motorized roller shade features needed for any commercial project	Programmable top and bottom limits
Allows for native integration with Wattstopper for control of lighting and shading on a single system	BMS compatible using BACnet over IP
Aluminum tubes ensure no rust stains on the fabric from high humidity locations	

Specifications

General Info

Speed	24RPM	Limit Switch Capacity	300 Turns
Amperage	0.95 A	IP Rating	IP31
Technical Information			
Product Has Potential to Contribute to LEED	Yes		
Additional Information			
Maximum Product Height	450 in	Maximum Product Width	260 in
Dimensions			
Product Line	Shading Systems	Application Sector	Commercial

Voltage	Ģ
