

Gen 3 shades, available in a battery option, utilize 1-way communication. They are ideal for small, standalone environments where interference from other radios may be a concern.

Features & Benefits

Proprietary 1-way communication is ideal for small, standalone environments

Whisper-quiet motors for silent operation

Patented manual override feature allows for hand operation without damage to motors

Available in multiple low voltage (22AWG/24V) power options: single unit, one which can power up to four shades, or a panel solution to power up to 16 shades

The majority of shades use D-cell alkaline batteries and last about 3 years, depending upon shade usage and shade size

Remotes uses a CR2032 button battery

Specifications

General Info

Product Line	Shading Systems	Application Sector	Residential
--------------	-----------------	--------------------	-------------

Dimensions

Maximum Product Height	180 in	Maximum Product Width	156 in
------------------------	--------	-----------------------	--------

Additional Information

Product Has Potential to Contribute to LEED Yes

Technical Information

Has Battery	Yes	Voltage	24.0 V
