

Wattstopper  
DLM Segment Network Wire, Black  
Part No. LM-MSTP-B

This type of wire connects low voltage devices (i.e., switches, occupancy sensors, photocells) to panels. It is #20 AWG wire that meets UL and NEC standards for Class 2 applications. Plenum rated wire meets plenum and riser requirements. Several types of multi-conductor low voltage wires are available for standard, pilot, locator, and multilevel switching or for connecting photocells to the LI control panels. This wire can also be used to wire relays remotely

## Features & Benefits

Data communications wire provides communications between panels and signaling devices

Custom cut to specified lengths

Distance markings in foot increments

Low voltage component wire connects switches, sensors, and other low voltage devices to panels

Color-coded for streamlined installation

## Specifications

### General Info

Product Line	Wattstopper	Color	Black
UPC Number	754182928163	Country Of Origin	United States

### Additional Information

Product Environmental Profile	Yes
