

## Wattstopper Discontinued - Segment Manager, 3 MS/TP Segment Network Part No. LMSM-3E

The LMSM Segment Manager is a network controller designed to communicate with DLM local networks and/or LMCP panels. It provides control, monitoring, adjustment, and standard or Human Centric Lighting (HCL) scheduling functionality for networked DLM systems. The Network Supervisor is a PC server running similar software designed to coordinate control of multiple Segment Managers and store historical data.

## Features & Benefits

Provides global control of DLM segment networks and access to advanced features

Connects to DLM segment network and PC, LAN or Internet via Ethernet

Friendly browser-based user interface

Supports third party integration with BAS through BACnet/IP

Enables scheduling, power monitoring and remote adjustment of devices on DLM local networks

Optional server-based network supervisor package records energyuse data to create long-term history

## Specifications

## General Info

Product Line	Wattstopper	Replaced by Part Number	LMJA-8125-SM
UPC Number	754182936137
