

**Legrand**  
DLM Wall Switch, 2-Button w/IR, Grey  
Part No. LMSW-102-G

LMSW-100 Series Wall Switches are low voltage devices for energy-saving manual on/off control of one or more loads from one or more locations. They are part of a Digital Lighting Management (DLM) system and can control any load(s) connected to DLM room controllers.

### Features & Benefits

- Hidden configuration button for easy access to Push n' Learn
- Infrared (IR) transceiver for wireless configuration and control
- Each button can control individual or multiple loads, or one scene; LED indicates status
- Six color options and custom engraving options; standard buttons may be replaced in the field
- Digital Lighting Management components plug together on a free-topology Category 5e DLM local network
- Sleek single gang devices fit decorator wall plates; 1-, 2-, 3-, 4-, and 8-button models
- Switches may be used for multi-way control

### Specifications

#### General Info

Color	Gray
UPC Number	754182925483
Country Of Origin	China
Product Line	Wattstopper

#### Additional Information

Product Environmental Profile	Yes
