

**Wattstopper**  
**Digital Scene Switch, 5-button w/IR, White, USA**  
Part No. LMSW-105-W-U

The LMSW-105 Digital Scene Switch is a low voltage device that sets and recalls preset lighting scenes and raises and lowers lighting levels. It is part of a Digital Lighting Management (DLM) system and controls loads connected to DLM room controllers by accessing four of the 16 scenes available in a DLM local network.

## Features & Benefits

|   |  |
|---|--|
| Low voltage switch for control of four preset scenes and raise/lower control of scenes or loads | Component of Digital Lighting Management integrated control system       |
| Plugs to other components using Cat 5e cables with RJ45 connectors eliminating wiring errors    | Plug n' Go automatic configuration and Push n' Learn for personalization |
| Customizable buttons with LED status indicators   | Active Dim feature enables temporary adjustment of any selected load     |

## Specifications

### General Info
