

High Strength with Flexible Eye, Single-Double-Triple Weave. Cable Diameter - 0.500-0.740-inch, Mesh Length - 32-inch, Break Strength - 10,000 lbs.

## Features & Benefits

High strength pulling grips are designed for situations where loads and safety considerations require an extra high strength grip.

These grips can be used for pulling bare or insulated conductor, wire rope or synthetic rope.

They are most commonly used for attaching pulling lines to conductors, conductors to running boards and conductor-to-conductor connections.

Mesh Length: 32

## Specifications

### General Info
