

Cablofil
Discontinued - Cablofil Cable Cleats
Part No. P280012

Cablofil cable cleats are designed to restrain cables from lateral and torsional forces supported by ladder tray. In vertical applications, cable cleats provide axial strain relief to cables without damaging the cable sheath. Cablofil heavy-duty cable cleats enclose the cable and the ladder rung with a rigid hi-strength interlocking frame that protects high, medium and low voltage cables from mechanical damage resulting from short circuits.

Features & Benefits

Suitable for continued use after exposure to short circuits

Protects against damage to cables and ladder tray

Nonmetallic material, helps limit hot spots at the location of the cleat due to circulating currents

Accommodates virtually every type of cable tray rung, including I-beam, elliptical, square and channel strut

Designs for single or trefoil conductors

UV and Flame resistant

Restrains single conductor, high-voltage cables

Specifications

General Info

Product Line	Cablofil	Finish	Other
UPC Number	800388255777	Country Of Origin	United States

Dimensions

Product Width US	6.0 in	Product Weight US	1.3 lb
Product Volume US	0.083 cu ft	Product Depth US	6.0 in
Product Height US	4.0 in
