## 4 legrand ${ }^{\circ}$

## Cablofil <br> Vertical Inside 30 Elbow

Part No. P308759

The aluminum I-beam design of ITray is perfect for industrial installations with large diameter cables in long span situations, minimizing total tray width and creating a smooth transition between straight sections and fittings. A structural offset in the sidewall creates strong, mid-span splices that need fewer supports. Each splice snaps in place and stays without holding, Additionally, only four bolts are needed for each splice reducing hardware needs by $50 \%$. These features allow Itray to be installed up to $30 \%$ faster than standard tray.
