Cablofil Vertical Inside Elbow Covers Part No. P315340

The aluminum I-beam design of ITray is perfect for industrial installations with large diameter cables in long span situations, minimizing total tray width and creating a smooth transition between straight sections and fittings. A structural offset in the sidewall creates strong, mid-span splices that need fewer supports. Each splice snaps in place and stays without holding, Additionally, only four bolts are needed for each splice reducing hardware needs by 50%. These features allow Itray to be installed up to 30% faster than standard tray.

Finish: Plain

Features & Benefits

Material: Aluminum Alloy 5052 - H32

Width (W): Tray width: 6", 9", 12", 18", 24", 30", 36"
