Cablofil
6A-0462-S6 Cable Bridge 12"W
Part No. P645113

The aluminum I-beam design of ITray is perfect for industrial installations with large diameter cables in long span situations, minimizing total tray width and creating a smooth transition between straight sections and fittings. A structural offset in the sidewall creates strong, mid-span splices that need fewer supports. Each splice snaps in place and stays without holding, Additionally, only four bolts are needed for each splice reducing hardware needs by 50%. These features allow Itray to be installed up to 30% faster than standard tray.

Features & Benefits

Allows cables to cross over without touching

Specifications

General Info

Product Line	Cablofil	Finish	Aluminum
Country Of Origin	Mexico		

Dimensions

Product Weight US	3.69 lb
