Pass and Seymour

Series 16 45° Black Double Set Screw Panel Mount - Male

Part No. PS45MRBBK

Pass and Seymour cam-type devices are built with top-quality materials for enhanced durability and service life, along with increased insulation protection for safety. Our angled receptacle offerings are ideal for supplying temporary electrical distribution for film and other entertainment production, theme parks, fairs, carnivals, concert venues, arenas and convention centers, mining and construction, marine shipbuilding and repair and more.

Features & Benefits

Type 3R Rated for indoor and outdoor use.

Housing is made of Santoprene: for outstanding impact and chemical resistance.

Can be retrofitted to existing locations and power distribution systems.

For covering patents, see www.legrand.us/patents.

Solid one-piece brass contacts provide superior and consistent connection under the most extreme conditions.

Intermateable and compatible with competitive cam-type products.

Brass eyelets for #10-32 mounting through bolts (bolts not provided).
