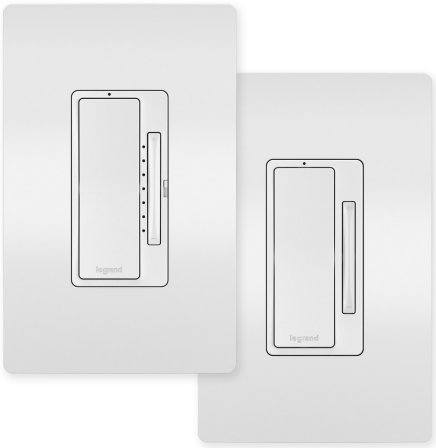
radiant Collection

radiant® Easy 3-Way Dimmer Kit, White

Part No. WNREZK50WH



This kit uses a wireless dimmer to easily add control of a light or fixture from a second location, even in rooms or locations currently without 3-way wiring.

Simply replace the existing switch or dimmer with the kit's radiant® Tru-Universal Dimmer (wired), then use the included battery-powered radiant® Wireless Dimmer to add another point of control wherever it is desired. Mount the Wireless Dimmer to any wall or surface – without cutting, wiring or tools – using the provided adhesive. The dimmers come pre-paired to enable multi-location control in seconds.

Want app control? These devices are equipped for enhanced functionality. Simply add a Smart Gateway with Netatmo and use the Legrand Home + Away app to control your lights from anywhere (and much more). For more information visit www.legrand.us/addappcontrol.

Made exclusively for use with screwless Wall Plates from the radiant® Collection, sold separately.

Features & Benefits

- Easily adds control of a light from a second dimmer
- First Dimmer (Wired) Installation: Replaces any standard (wired) switch or dimmer in as little as 15 minutes. Neutral required
- Works with virtually any 120V dimmable bulb or fixture (excludes 0-10V)
- Screwless Wall Plates included. Coordinate with other designer switches and outlets from the radiant® Collection for a cohesive, sophisticated look
- Ready to install, no configuration needed
- Second Dimmer (Wireless) Installation: Mounts to any wall for long-lasting, battery-powered control
- Add a Smart Gateway with Netatmo to control lights via app, connect to other smart products and more

Specifications
