

The Power Supply In-Wall Extension Kit allows for code compliant installation of most wall mounted low voltage products that require an external power supply. The kit allows power supplies to connect at receptacle height in the wall with a keystone ada

## Features & Benefits

Code compliant in-wall extension of power to low voltage devices

Use with power supplies up to 48vDC at 100 watts

Supports LED accent lighting kits

Keeps power supplies out of sight and cables concealed in the wall

Supports all low voltage power supplies and connection types

## Specifications

### General Info

UPC Number 804428431855

Countries Of Origin Taiwan, Province Of China

Product Line On-Q

Application Sector Residential

Construction Injection molded plastic

Standard UL, cULus, RoHS
